

Please do not replace FM with LPFM. It is my understanding that this action could cause us to lose local reception on Air 1 Radio station.

Air 1 offers alternative “rock” for my teenager. Instead of listening to rock with explicit reference to sexual acts, drugs, alcohol, suicide, etc, etc. she can listen to rock with lyrics based on upbeat, positive issues.

I believe it is in the public interest to have Air 1 and other stations like it available. Without FM translator service, teenagers in our community may lose the only alternative to “rock” music.

Thank you.
